

Manufacturing Expo Forum 2018

“Implementing Thailand 4.0: Readiness for the Future of Manufacturing”

Thursday, 24 May 2018 at 13.00-15.30 hrs.

Koh Kaew Meeting Room, Classic Kameo Hotel, Rayong

What will the future of Thailand’s manufacturing industry look like? Innovations in Industry 4.0 are moving technology and consumer behaviors faster than ever, forcing Thai industrialists from broad spectrum of manufacturing industries to change their approach to stay relevant. The time is now for manufacturers to evolve their manufacturing process, which is vital to transform the country into Thailand 4.0.

The pre-show conference of Manufacturing Expo 2018, the Manufacturing Expo Forum 2018, will draw upon industry leaders to discuss the topic of **“Implementing Thailand 4.0: Readiness for the Future of Manufacturing”**. You will have the opportunity to learn about framework, strategies, innovations in Internet of Things (IoT), and engage with the most diverse community in the manufacturing and supporting industries.

Target Group:

- Business Owner in plastic industry and supported industry
- Industrialist, Factory Manager, Production Manager, Engineer, or Technician
